DMPA-SC ACCESS COLLABORATIVE

DMPA-SC integration in preservice training: Lessons from Uganda

Moderator

Andrew Wabwire

Project Coordinator

DMPA-SC Access Collaborative

PATH Uganda

Agenda

1. Panel Discussion
2. Q&A
3. Final Reflections

DMPA-SC Access Collaborative

Learning and Action Network

Panelists

Dr. Safinah Museene
Commissioner, Health
Education and Training,
Ministry of Education and
Sports, Uganda

Dr. Robert Mutumba
Principal Medical
Officer, Ministry of
Health, Uganda

Fiona Walugembe
Project Director, DMPA-SC
Access Collaborative,
PATH, Uganda

Allen Namagembe
Deputy Project Director,
DMPA-SC Access
Collaborative, PATH, Uganda

Barbara Kunihira
Monitoring and Evaluation Officer,
DMPA-SC Access Collaborative,
PATH, Uganda

DMPA-SC integration in preservice training: Lessons from Uganda

Channels
actively offering
self-injection:

Health facilities

Community

Drug Shops

Uganda

What steps were taken to bring DMPA-SC/ self-injection in preservice training to fruition?

What does it mean to include DMPA-SC/ self-injection in preservice training?

Channels actively offering self-injection:

Health facilities

Community

Drug Shops

Uganda

How does the inclusion of DMPA-SC/self-injection in preservice training, contribute to achieving some of the FP2030 country commitments?

How can regulators and ministries of health advocate for the availability of DMPA-SC in their country to ensure a continued supply?

Channels actively offering self-injection:

Health facilities

Community

Drug Shops

What additional opportunities does virtual engagement provide, considering the preliminary activities for preservice were started in the COVID-19 lockdown period?

What challenges and lessons learnt have we noted in the implementation of innovative training approaches?

Channels actively offering self-injection:

Health facilities

Community

Drug Shops

Audience Q&A

Closing Remarks

Access Collaborative technical assistance resources

The [DMPA-SC Access Collaborative](#) provides data-driven technical assistance, resources, and tools that countries need for designing, implementing, and monitoring the introduction and scale up of DMPA-SC self-injection as part of an expanded range of contraceptive methods, delivered through informed choice programming.

In addition to general information and evidence on DMPA-SC, partners can access the support outlined in the menu by submitting a request through the technical assistance request form linked below. Your request can be submitted by emailing the completed form to FPoptions@path.org.

DMPA-SC Access Collaborative country briefs

The **DMPA-SC Access Collaborative** has published a collection of briefs on countries where we have provided focused technical assistance between 2017 and 2021. This includes the Democratic Republic of the Congo, Kenya, Madagascar, Nigeria, Uganda, and Zambia. Each brief describes the country's introduction and scale-up experiences for DMPA-SC and self-injection, including accomplishments, challenges, innovations, key lessons, factors for success, and plans for the way forward.

The collage displays six country briefs, each with a title and a small graphic of the country's location. The briefs are:

- Democratic Republic of the Congo's journey to DMPA-SC and self-injection scale-up**
- Nigeria's journey to DMPA-SC and self-injection scale-up**
- Kenya's journey to DMPA-SC and self-injection scale-up**
- Uganda's journey to DMPA-SC and self-injection scale-up**
- Madagascar's journey to DMPA-SC and self-injection scale-up**
- Zambia's journey to DMPA-SC and self-injection scale-up**

Each brief includes a summary of the country's progress, challenges, and future plans, along with a small graphic of the country's location. The briefs are arranged in a grid-like fashion, with some overlapping.
