## Access Collaborative technical assistance resources

The [DMPA-SC Access Collaborative](#) provides data-driven technical assistance, resources, and tools that countries need for designing, implementing, and monitoring the introduction and scale up of DMPA-SC self-injection as part of an expanded range of contraceptive methods, delivered through informed choice programming.

In addition to general information and evidence on DMPA-SC, partners can access the support outlined in the menu by submitting a request through the technical assistance request form linked below. Your request can be submitted by emailing the completed form to [FPoptions@path.org](mailto:FPoptions@path.org).

Institutional Author(s): [PATH](#), [JSI](#), [Inc.](#)

Publication date: December, 2020
