What we learned & where we go from here!

Ce que nous avons appris et où nous allons à partir de là !

Caitlin Cornelless, Director, Access Collaborative, PATH
314 representatives from 41 different countries attended the first three days of our workshop
Nigeria had the most representatives, with the US, Uganda, Kenya and Madagascar in the top five.
Four calls to action!

1. Add your country’s data to the global DMPA-SC monitoring system.
2. Request technical assistance from the Access Collaborative.
3. Organize for action planning.
4. Participate in future discussions through the Learning Action Network.
Take action!

Data systems and availability vary across the 16 countries introducing self-injection

If you would like to partner with the Access Collaborative to add your country’s data to the global DMPA-SC monitoring system, please contact us:

FPoptions@path.org
Technical assistance menu and request form

To request technical assistance from the DMPA-SC Access Collaborative, please fill out our request form at:

https://fpoptions.org/resource/TA

Access Collaborative Technical Assistance Request

The Access Collaborative provides data-driven technical assistance, resources, and tools that countries need for designing, implementing, and monitoring the introduction and scale up of DMPA-SC self-injection as part of an expanded range of contraceptive methods, delivered through informed choice programming.

This request can be submitted by clicking the Submit Request to Access Collaborative button at the bottom of the page, or by emailing the completed form to PPortions@path.org.

Name
Title
Organization
Email Address

Please select the type(s) of support you are requesting
- Meeting participation, workshop facilitation, etc. (specify in-person or virtual)
- Coaching or consultation
- Training
- Phone call or email to answer specific questions
- Review and provide input on a document/strategy (ex. scale up plan, operational plan for self-injection, quantification/supply plan, guidelines)
- Evaluation or needs assessment
- Other
- Not sure: please contact me to discuss

Please select the area(s) for which you are requesting technical assistance
- General information and evidence
- Self-injection program design
- Developing introduction and scale up strategies
- Scale up plan costing
- Training and supervision (training or supervision approaches, materials, training-of-trainers, eLearning)
- Advocacy strategy development and policy landscape analysis
- Market development and/or analysis, total market approach
- Supply (forecasting and quantification exercises, strategic supply planning)
- M&E plan design (identifying appropriate indicators and definitions, designing evaluation strategies, data visualization, data-based decision-making)
- Research (input on pilot/study design, learning agenda development)
- Input to proposal development or overall priorities in your programming
- Other specify:

www.path.org/dmpa-sc / PPortions@path.org

What is the plan vision for DMPA-SC in your country (geographic coverage, self-injection, which sectors, which focus populations, etc.)?

Technical assistance scope and objectives, timeline
Please provide a brief description what you hope to achieve by the end of the technical assistance activity. If known, list specific tasks that will need to be completed and estimated deadlines. If you are looking for answers to specific questions, please list the questions here.
Country action planning

Action planning taking place this month
Uganda, Madagascar, DRC, Nigeria, Zambia, Benin, Burkina Faso, Cote d’Ivoire, Guinea, Mali, Mauritania, Niger, and Togo

Action planning process
1. Key self-injection data takeaways
2. Potential impact in your country
3. Barriers or opportunities to self-injection data collection and use
4. Prioritization of action items
DMPA-SC Learning and Action Networks (LANs)

The DMPA-SC Access Collaborative facilitates two Learning and Action Networks (LANs); one English-speaking, one French-speaking.

The LANs are virtual peer-to-peer learning networks on DMPA-SC introduction and scale-up, including self-injection.
DMPA-SC Learning and Action Networks (LANs)

LAN objectives

• Meet identified information needs through country-to-country exchange of evidence, tools, and best practices.
• Accelerate adoption of best practices and innovation in DMPA-SC introduction and scale-up, including self-injection.
• Build capacity of country-based decision-makers and public/private implementers to develop, implement, and oversee DMPA-SC introduction and scale-up plans.

How can members engage?

• Virtual meetings (i.e. webinars, teleconferences).
• Online communications portal.
• Online resource repository.
• Collaborative development of new resources based on identified needs. (e.g., best practices white papers)
• In-person meetings.

If you are interested in joining a LAN, contact:

DMPA-SC-LAN@path.org
RESOURCES
DMPA-SC Resource Library

www.FPoptions.org

- All workshop session recordings will be available on the DMPA-SC resource library.
- Attendees will receive an email when the recordings have been posted.

When women and adolescent girls have access to a variety of contraceptives, they are more likely to find and use a method that meets their needs and decide whether and
• Tous les enregistrements des sessions de l'atelier seront disponibles sur la Bibliothèque de ressources DMPA-SC.

• Les participants recevront un e-mail lorsque les enregistrements ont été publiés.
Session recordings/ Les enregistrements de les sessions

Recordings of all sessions are available on the workshop website for registered participants. In the coming weeks recordings will be posted publicly on the DMPA-SC Resource Library (www.FPoptions.org).

Next week, all participants will receive an email with a short survey evaluating the workshop. Thank you in advance for your feedback!

Workshop survey/ Enquête d'atelier

Les enregistrements de toutes les sessions sont disponibles sur le site web de l'atelier pour les participants inscrits. Dans les semaines à venir, ils seront publiés publiquement dans la Bibliothèque de ressources DMPA-SC (www.FPoptions.org).

La semaine prochaine, tous les participants recevront un e-mail avec un court sondage évaluant l'atelier. Merci d'avance pour vos commentaires!
